

CDS Labs Containers

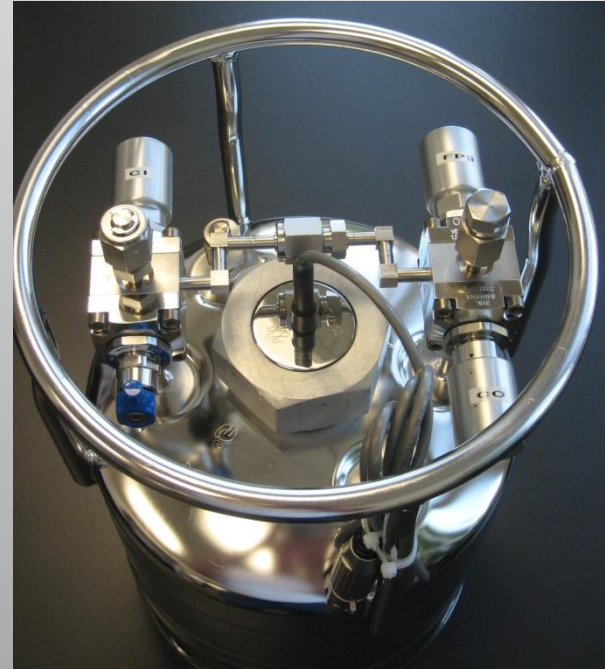

Source / Fixed Tank Design

Conventional 2-valve config.
OK for high V.P. precursors

Proprietary 4-valve config.
Optimized for Low V.P. precursors
Dead-leg free design utilizing CDS
Labs surface mount manifolds

Practical Container Development

ThermaCoil H₂O and DEZ Bubblers

- Thermal Coils ●
- 70% Better T Control
- Splash Guard ●
- Stops liquid escape
- Sparger Halo ●
- Improved Saturation
- Thermal Mixing
- Stilling Well ●
- Stable Level Sensing
- Integral L/S & TC ●
- Simplifies Assembly
- Capacitance L/S ●
- Continuous Level Sensing
- DEZ Inlet Manifold ●
- Maximizes purge efficiency
