

The Cornell NanoScale Science and Technology Facility

2026 CNF TCN Short-Course

June 2-5, 2026

🕒 8:30 am-5:00 pm

Register Now!

Your Fast Track to Nanofabrication!

The TCN Short Course offers a dynamic introduction to nanofabrication through a combination of expert-led lectures and live laboratory demonstrations. Participants gain a practical, well-rounded understanding of key techniques used in modern nanofabrication environments.

This course is ideal for anyone looking to quickly become familiar with the tools, processes, and best practices utilized by CNF researchers and the broader high-tech community.
